# BIKE TRAVEL PAD

by Okendo

BIKE TRAVEL PAD by OKENDO, is the first travel frame pad designed for bikes. It is adjustable to the bike's shape avoiding scratches and superficial damages produced during transportation.

It is light, slim, easy to carry and it can be adjusted to any suitcase or space. It is manufactured with water proof polyester fabric, it is impact and stretching resistant and antibacterial.

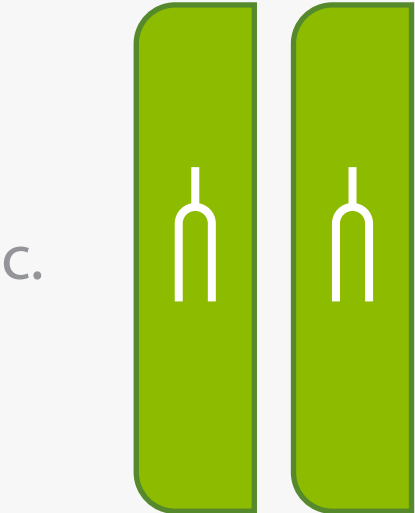

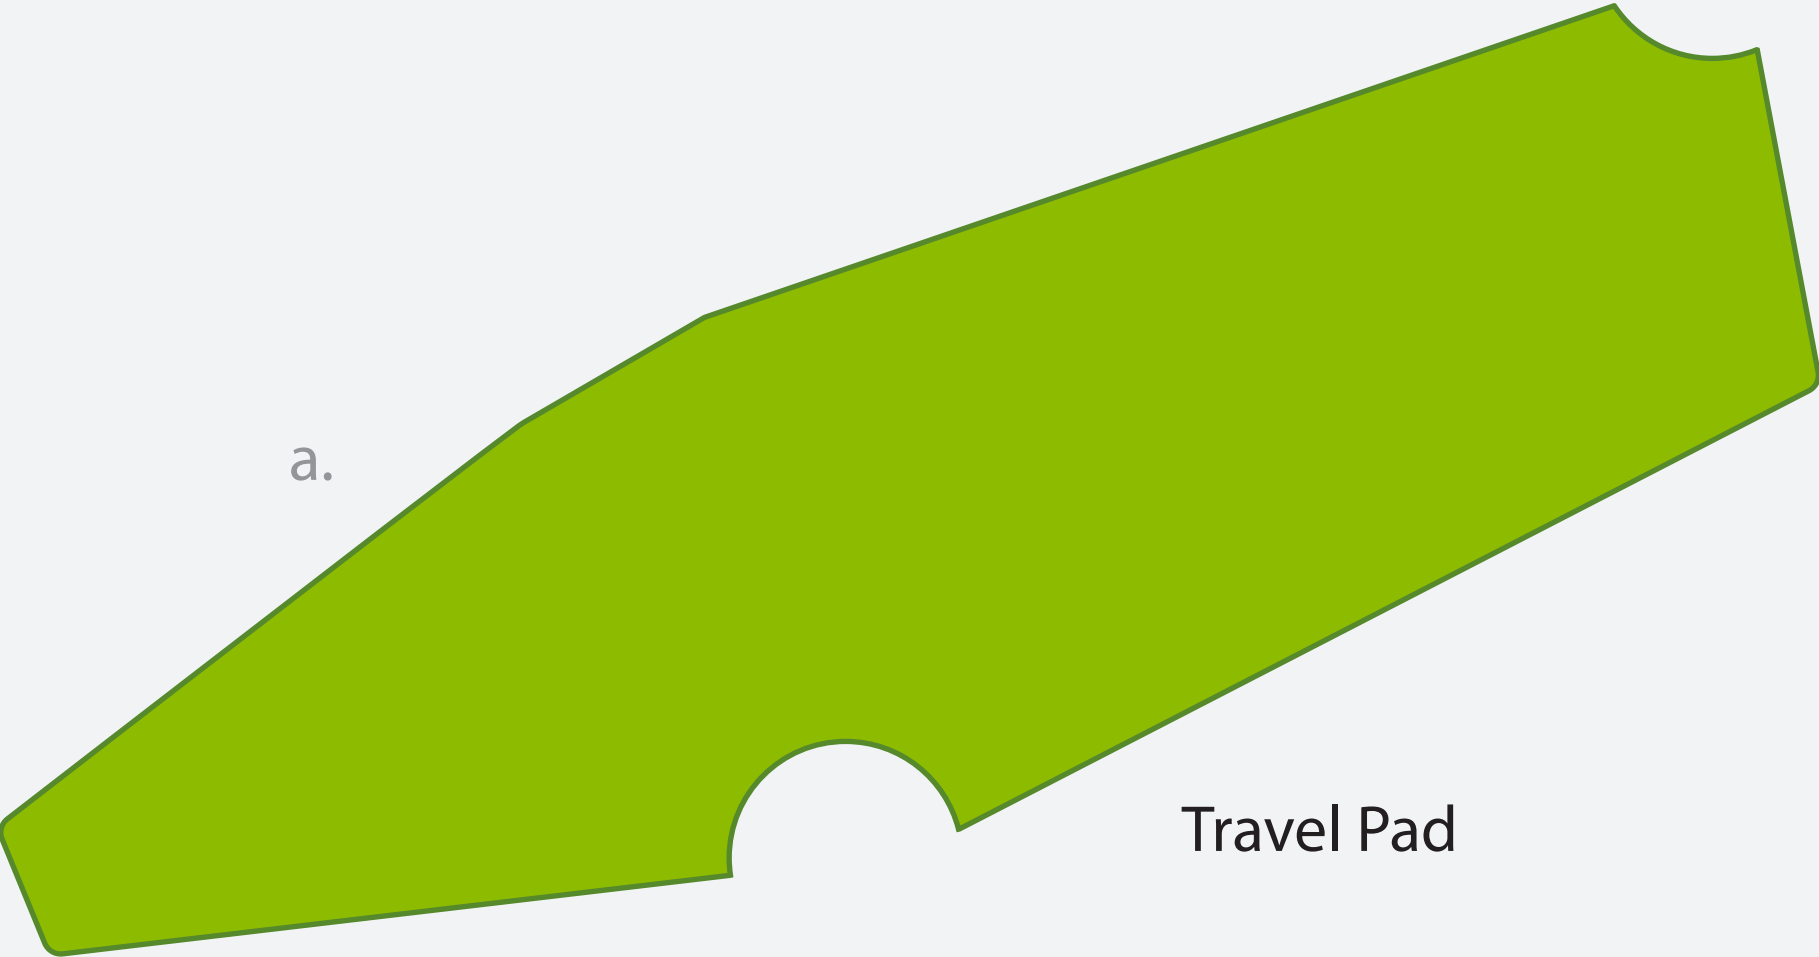

It is made of with 5,9 inches (15 cm) of flexible Superlone that protects it, soften impacts and vibrations.

## S i z e

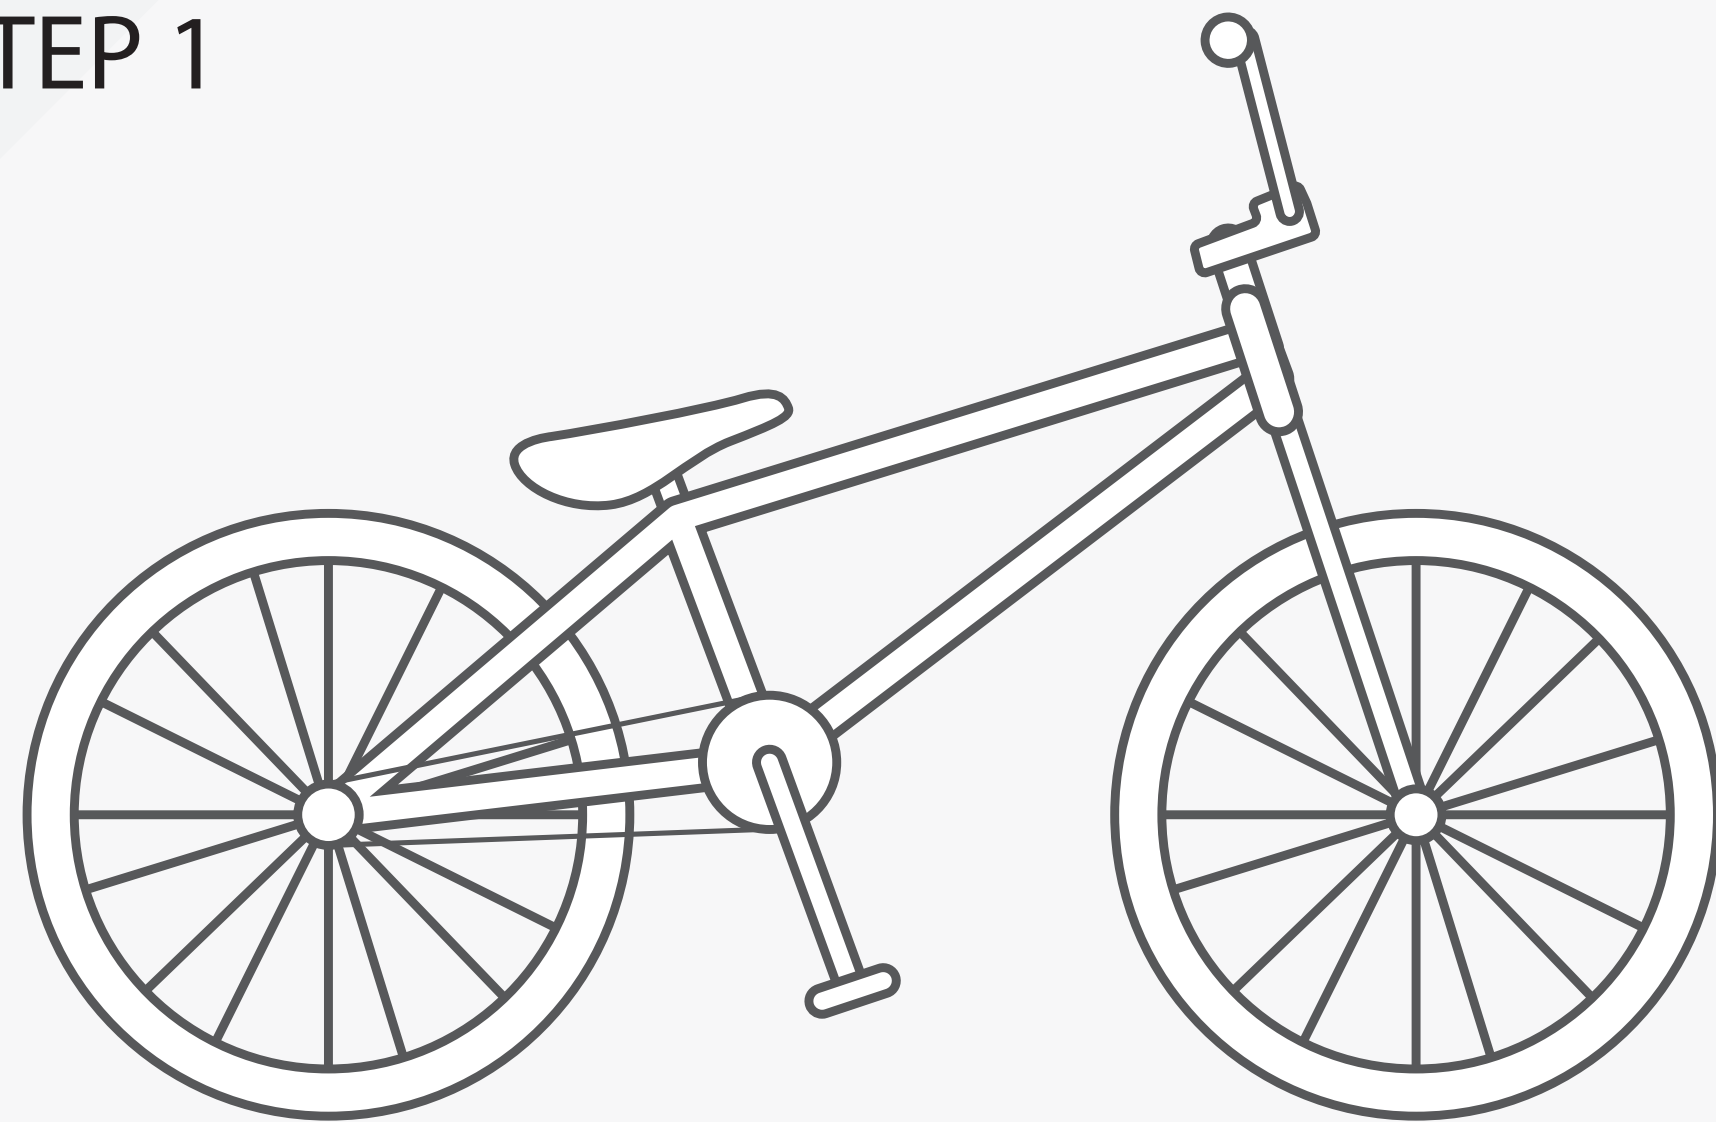

The BIKE TRAVEL PAD by OKENDO fits all sizes and can be adjusted to PROXL, PRO, EXP, JUNIOR y MINI frames.

*It is designed to protect the bikes while travelling by airplanes, cars, busses and to provide safety to the athletes by keeping their bikes in their houses, utility rooms or warehouses.*
